The students should come dressed properly for Mass. We thank our Sacred Heart Villa families for allowing us to teach your children throughout this school year. God bless you all.

Also, if you have not yet registered your child for the next academic school year, please do so. Textbooks orders are processed only for students who are registered. The deadline for ordering the textbooks is by July 1st.

Starting in September 2025, our students will begin the Robotic program from Engineering for Kids Buffalo.

The Program will run from September- May. The first four classes introduce basic concepts of engineering and focus on the engineering design process and allow students to take home a project after each class to improve on their designs at home and explore outside of the class (more details to follow later).

Summer camp will start on July 1st and ends on August 1st. There will be no tutoring this summer because some of the Sisters will be visiting their families. Have a safe and healthy summer. Happy Feast of the Sacred Heart on June 27th.
